Subject: Application for the Post of Design Consultant

Dear Hiring Committee,

I am writing to express my keen interest in the position of *Design Consultant* at the Design Innovation Centre (DUDIC), as advertised in your recent notice (Advt. No. DUDIC/AD/2025/02). As a postgraduate student of Informatics at the University of Delhi with a solid foundation in Electronic Science, I am passionate about merging design, technology, and innovation to develop impactful and user-centric solutions.

With a comprehensive background in **software development, full-stack web design, UX/UI prototyping**, and **electronic systems**, I have undertaken several projects that reflect both creativity and functionality. My current role as a Software Developer Intern at CodeRower Software Pvt. Ltd. involves building secure Flask-based APIs, developing responsive ReactJS interfaces, and integrating intelligent chatbots—demonstrating my capability in both frontend and backend domains.

Earlier, as a VCIS Summer Intern at the University of Delhi, I worked on data analysis using Python and created web platforms with REST APIs and SQL integration, showcasing my versatility in both software and data-driven projects.

My academic and technical experiences align well with your desired profile for a candidate who can contribute to **product design, UX/UI, and prototyping** in the context of **Electronics, IT, and Full Stack Development**.

I am enthusiastic about the opportunity to contribute to DUDIC's mission of promoting interdisciplinary innovation through design. I have attached my CV, copies of academic credentials, and a portfolio of relevant projects for your kind consideration.

Thank you for your time and consideration. I look forward to the possibility of contributing to your esteemed Centre and would welcome the opportunity to discuss my application further.

Sincerely,

Anjali
